

Monthly Report Notice

Report Not Available

Thank you for your interest in the Police Civilian Oversight Board's monthly reporting. We notice you've attempted to access a monthly report that is not currently available in our system.

Understanding the Gap in Monthly Reporting

The inconsistency in our monthly reporting record stems from several organizational transitions experienced by the PCOB:

1. Leadership Transitions: The PCOB has undergone changes in Executive Directors during its formative period.
2. Board Membership Changes: Turnover within the Board itself has led to evolving expectations regarding the frequency, format, and content of public reporting.
3. Reporting Structure Development: As the PCOB has matured as an organization, our approach to documentation and public transparency has similarly evolved.

Commitment to Transparency and Historical Documentation

Beginning October 2024, the PCOB has implemented a new standardized monthly reporting structure. These reports are made public at each board meeting, covering activities from the previous month and then linked to this reporting dashboard. For historical periods where formal monthly reports were not created, we are actively working to:

- Reconstruct monthly activity summaries for 2023 and 2024 where possible;
- Establish a comprehensive historical record of the PCOB's work;
- Ensure continuity in our public documentation moving forward.

Next Steps

We invite you to:

- Check back regularly as we continue to expand our historical documentation;
- Review existing monthly reports in our archive;
- Attend our public board meetings where current monthly reports are presented.

Thank you for your understanding and continued interest in the important work of civilian oversight of law enforcement.
