**Home to Hope** serves clients using authentic, lived experience to impact and inspire "time-served" individuals by introducing resources, providing peer support, and advocating for fairness, thereby advancing our community. **Home to Hope Peer Support Groups** are a space in which participants and those interested in the program can exhale from their day-to-day stresses. Participants have the ability to talk freely without judgement. At the beginning of each group each participant will help create a "Comfort Agreement" which will encourage confidentiality and respect during the group.
