

# CCS Energy and Water Management Program

## Develop your energy and water saving message!

We hope you had fun developing your Energy and Water Saving Story. This story should represent why saving energy and water is important to you. Now we want you to think about how to make a fun and informative tagline or message from your story to encourage others to save. This quarter we want you to create your own tips inspired from your [Energy and Water Saving Story](#).

### TIPS:

- Write your own tip inspired by your Energy and Water Saving Story!- See the activity below!

**If you haven't had a chance to develop your energy and water saving story and want to, put it here for reference:**

---

---

### CREATE YOUR ENERGY AND WATER SAVING MESSAGE OR TAG LINE

Remember Jade from the fall activity? She liked using left-over water to water her plants. Her water saving tip is: **Make a plant happy by watering it with your extra water.**

Taylor likes playing video games, but they would always make sure to unplug their console after they were done. Taylor's energy saving tip is: **When you're done, power down and unplug!**

### ACTIVITY: WRITE OUT OR DRAW YOUR TIP OR TAGLINE HERE:

*(Need inspiration? Check out some of the examples on the next page)*

**ACTIVITY: MATCH THE WATER AND ENERGY SAVING TIP WITH THE SAVING ACTION**

After you finish using an electronic (game console, TV, laptop), remember to unplug

If you have left-over water from a water bottle, use it to water your plants instead of pouring down the drain.

Turning the lights off when you leave a room.

If you see an issue like a water leak, get a teacher to help.

*Thank you to Ms. Riley's 4th grade class at Greenbrier for their taglines from the "Think Global, Act Local" Lesson.*
